

Jaychandra Industries – Manufacturing All Kinds Of Standard And Precision Brass Parts & Components As Per The Customer Specification And Requirements

Originated in Jamnagar, India in the year 2015, Jaychandra industries is one of the superior manufacturer of all kinds of brass parts including brass fittings, brass rods, cable glands, earthing parts, auto parts, inserts, electrical parts, CNC turned parts, sheet metal components and more as per our valued customer specification, drawings and samples. Our well build team of experts and upgraded machinery technology can give an innovative and dynamic solution to your business needs.

Our AIM

Our Motive is to maintain time schedule, product quality, total customer satisfaction and maintain transparency and accuracy.

Product Quality

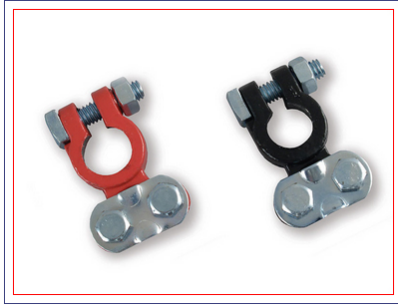

We focus on the stringent quality standards right from material procurement, production, engineering, testing, packing, storing and delivery of the order to our valued customer. Continues testing and inspection facility of each and every step to achieve zero defects and rejection has built a strong value for our customer to stack up against the competitors. Our Quality of product defines the result of the efficiency of the entire production process formed of the expert team, material, and upgraded machinery.

Our Product

List of Products	
• Battery terminals	• Brass anchor
• Brass auto parts	• Brass casting parts
• Brass CNC & Precision turned components	• Brass Connectors
• Brass & copper extrusion rods	• Brass electrical Parts
• Brass electronics Parts	• Brass fasteners
• Brass fittings	• Brass inserts
• Brass transformer parts	• Cable glands
• Cable gland accessories	• Earthing & lightning parts
• Energy meter parts	• Neutral links
• Sheet metal components	• Split bolts / Line Taps
• Terminal blocks	

Battery Terminals

Types of Battery Terminals

|---|---|
| <ul style="list-style-type: none">• Lucas type battery terminals | <ul style="list-style-type: none">• Dustan Type Battery Terminals |
| <ul style="list-style-type: none">• Angel type battery terminals | <ul style="list-style-type: none">• Leyland type battery terminals |
| <ul style="list-style-type: none">• Toyota Type Battery Terminals | <ul style="list-style-type: none">• Telco type battery terminals |
| <ul style="list-style-type: none">• Seiwa Type Battery Terminals | <ul style="list-style-type: none">• European Car type battery terminals |
| <ul style="list-style-type: none">• Strip Type Battery Terminals | |

→ Material

High-quality brass, copper, aluminium, steel, stainless-steel, Mild steel (MS), bronze, zinc or any special material composition as per customers requirement.

→ Threads

ISO Metric, BA, BSW , UNC , UNF , UNEF etc. Any Thread`s As Per Customer`s Design.

→ Length / Size

As per Custom Designs or requirements.

→ Finish And Coating

Brass Natural, Nickel Plated, Tin Plated or any coating as per customer specification.

Brass Anchor

Available Items		
<ul style="list-style-type: none"> • Brass Anchoring Systems 	<ul style="list-style-type: none"> • Brass Sleeve Anchor 	<ul style="list-style-type: none"> • Brass Knurling Anchors
<ul style="list-style-type: none"> • Brass Anchor With Thread 	<ul style="list-style-type: none"> • Brass Wood Anchors 	<ul style="list-style-type: none"> • Brass Wedge Anchors
<ul style="list-style-type: none"> • Brass Spring Anchors 	<ul style="list-style-type: none"> • Brass Pool Anchor 	<ul style="list-style-type: none"> • Brass Slotted Anchors
<ul style="list-style-type: none"> • Brass Drop Anchor 	<ul style="list-style-type: none"> • Brass Round Stud Anchors 	
<ul style="list-style-type: none"> • Brass Plain Anchors 	<ul style="list-style-type: none"> • Brass Concrete Anchors 	

→ Features

- Larger Bearing area and acts as a socket
- Fixture can be removed and replaced
- Suitable for solid brick light concrete hollow core concrete panels and timber. Brass Anchor is also used for light weight railing fixings.
- Internal tapering to enable the Anchor to expand and to self lock the suspension rod into position.
- The body is knurled for improved performance.
- Corrosion resistant and hence can be used In all environments
- Embossed surface provides extra grip
- Inside conical shape ensures equal expansion of segments while screwing
- Very useful in building material via concrete, brick natural stone and also in wood
- Temperature resistant
- Simple and easy to apply

→ Material

High-quality brass, copper, aluminium, steel, stainless-steel, Mild steel (MS), bronze, zinc or any special material composition as per customers requirement.

Brass Auto Parts

Product Range

- | | |
|--|--|
| <ul style="list-style-type: none"> • Precision Turned Auto Components | <ul style="list-style-type: none"> • Temperature sensors Brass Components |
| <ul style="list-style-type: none"> • Brass Inserts for Auto Plastics components | <ul style="list-style-type: none"> • Auto Meters Brass Components |
| <ul style="list-style-type: none"> • Automotive Brass Components | <ul style="list-style-type: none"> • Automobile Valve Components |
| <ul style="list-style-type: none"> • Auto Brass Bush | |

→ Materials

High-quality brass, copper, aluminium, steel, stainless-steel, Mild steel (MS), bronze, zinc or any special material composition as per customers requirement.

→ Threads

- ISO metric, MM, PG, BSW, BSP, BSB, BSF, BA, NPT, NPTF, UNC, UNF, UNEF etc
- Any threads as per customer's design

→ Finish and Coating

Natural, Electro Tinned, Nickel, Chrome, Led, Silver, Gold, Zinc Blue etc

Brass Casting Parts

Brass has the strength and corrosion resistance that make it ideal for a variety of applications. Brass Castings manufactured are well regarded in the market for their finish quality and are manufactured using latest technology, thus making these suitable for applications in diverse industries. As prominent custom brass casting manufacturers from India, the sand casting facility available at our end makes us well equipped to tackle any challenging Brass Casting jobs.

Castings Method	
<ul style="list-style-type: none">• Sand Casting	<ul style="list-style-type: none">• Permanent mold casting
<ul style="list-style-type: none">• Shell casting	<ul style="list-style-type: none">• Centrifugal casting
<ul style="list-style-type: none">• Investment casting	<ul style="list-style-type: none">• Die casting casting

➔ **Material**

High-quality brass, copper, aluminium, steel, stainless-steel, Mild steel (MS), bronze, zinc or any special material composition as per customers requirement.

Brass CNC & Precision turned components

We are a medium to high volume Screw Machine Parts & Components supplier who produce Brass Turned Parts, Brass precision Turning components to specific drawing tolerances. Due to sound engineering and innovative flair, we can solve manufacturing requirements of the most technically demanding parts.

In addition, our Inspection Department has a comprehensive stock of gauges, clocks and micrometers etc, In many instances we work closely with our customers during the design stage of their product, to ensure that the most economical component is produced with respect to shape & standard material etc

→ **Material**

High-quality brass, copper, aluminium, steel, stainless-steel, Mild steel (MS), bronze, zinc or any special material composition as per customers requirement.

Brass Connectors

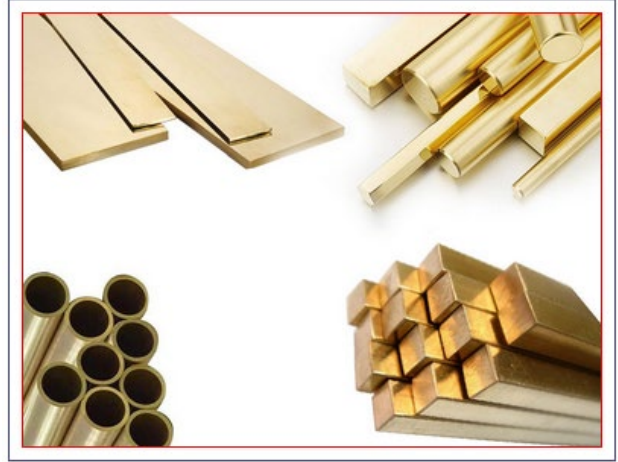

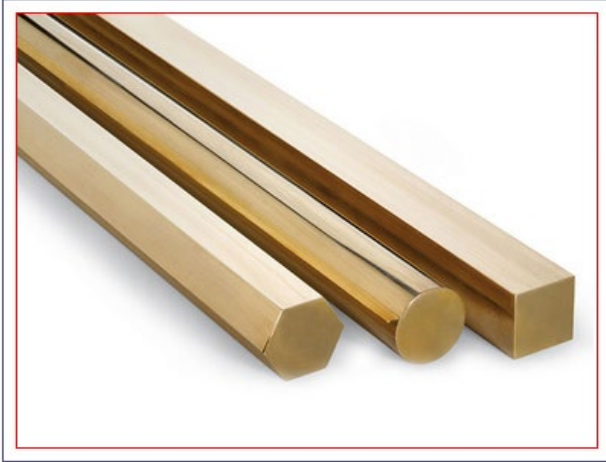

We are manufacture and exporters of Brass connectors, Brass connectors pin, Brass male connectors, brass water connector, brass female connectors as per customers drawing and specification. Due to these micro pins being burr free, smooth surface and fine tips, these pins can be used for low insertion force or high density connectors in computers and automotive electronic devices. These micro pins are widely used as connector pins and terminal pins.

→ Material

High-quality brass, copper, aluminium, steel, stainless-steel, Mild steel (MS), bronze, zinc or any special material composition as per customers requirement.

Brass & copper extrusion rods

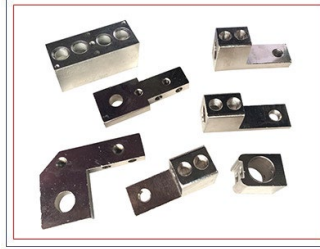

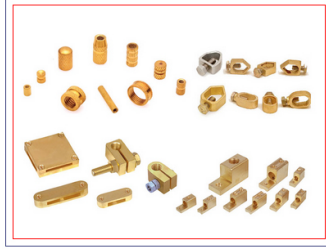

We manufacture copper & copper based alloys mainly brass / bronzes extrusion & drawn quality rods / bars in different shapes like – round, hex, square, rectangular & flat. We are also manufacturing section & profile as per customer's specification. All the product will supply in accordance with international standard specification & designation like CDA 36000, CZ 121, CUZn39pb3, CW603n etc.

→ Material

High-quality brass, copper, aluminium, steel, stainless-steel, Mild steel (MS), bronze, zinc or any special material composition as per customer's requirement.

Brass electrical Parts

We are manufacturing all kind of electrical brass components and electrical wiring accessories for many applications. We produce components as per customer's requirement which change accordingly customer application.

Product Range	
• Brass Cable Gland	• Brass Terminal For Telecommunication
• Electrical Appliance Components	• Telephone Parts
• Contact Block	• Automotive Electrical Parts
• Lock Brass Parts	• Switch Gear Accessories
• Electrical Insulating Components	• Plastic Electrical Industry Product
• Electrical Connectors	• Fixing Inserts
• Auto Electrical Parts And Equipments	• Gear Components
• Electrical Fuse Connectors	• Industrial Components
• Electrical Terminals	• Brass Sheet Cutting Components
• Electrical Pins	• Earthing Accessories
• Electrical Valve Pins	• Panel Board Accessories
• Electrical Cord Pins	• Brass Anchor
• Electrical Sockets	• Neutral Links
• Plastic Moulding Parts	• Terminal Blocks
• Inserts For Moulding	• Battery Terminals
• Brass Electrical Earth Pins	

→ Material

High-quality brass, copper, aluminium, steel, stainless-steel, Mild steel (MS), bronze, zinc or any special material composition as per customers requirement.

Brass electronics Parts

We manufacturing brass electronics components like sockets, connectors, cord pins, adaptor pins. We are manufacturing electronic brass components as per customer's requirement. We export brass electronics Components to India and as well as all over the world.

Product Range

- Electronics Components
- Electronics Connectors
- Electronics Sockets
- Electronics Pins
- Electronics Adaptor Pins

→ Material

High-quality brass, copper, aluminium, steel, stainless-steel, Mild steel (MS), bronze, zinc or any special material composition as per customers requirement.

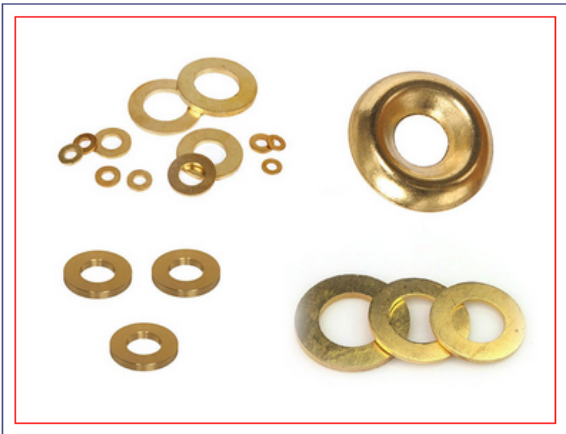

Brass fasteners

Brass Screws

Brass Nuts

Brass Washers

Brass Bolts

→ **Material**

High-quality brass, copper, aluminium, steel, stainless-steel, Mild steel (MS), bronze, zinc or any special material composition as per customers requirement.

Brass fittings

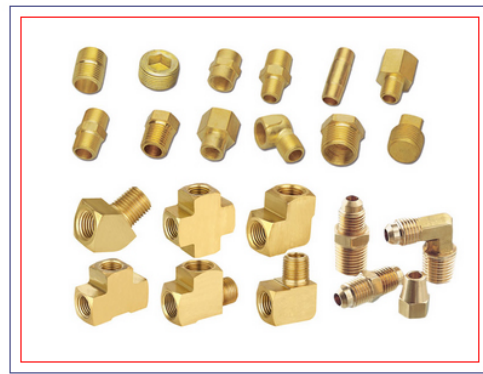

Brass CPVC/PPR Fittings

Brass Compression Fittings

Brass Hose Fittings

Brass Pneumatic Fittings

→ Material

High-quality brass, copper, aluminium, steel, stainless-steel, Mild steel (MS), bronze, zinc or any special material composition as per customers requirement.

Brass Inserts

We are manufacturing the round knurled inserts, hexagonal inserts and square inserts as per custom design. The inserts are available with diamond, straight or unidirectional Knurling.

We are the leading manufacturer of Brass threaded inserts for plastics Industries, Communication equipments, Automotive Industries, Electrical & Wiring Device Cases etc. We offer a full line of brass inserts for all methods of installation, including: ultrasonic, heat, thermal, press-in and mold-in. Although we produce various brass inserts as per custom design & specification, we have standard series of Threaded Inserts such as Straight Hole, Blind (Closed bottom), Collar Inserts, Ultrasonic, Press in, Tri Slotted Inserts etc. Around 3.5 million pieces of variety of brass inserts are manufactured by us per month to cater the voluminous demand of all our giant OEMS around the globe. Material: Generally Free Machine Grade of CuZn39Pb3 equivalent to BS 2874 is used to manufacture various brass inserts in form of round, Hexagon, Square etc. Other grades which are followed as per customer requirements are CZ 121 , CZ 131 , C3604, CDA 360, and DTD 627. Etc.

→ Material

High-quality brass, copper, aluminium, steel, stainless-steel, Mild steel (MS), bronze, zinc or any special material composition as per customers requirement.

Brass Transformer Parts

→ Material

High-quality brass, copper, aluminium, steel, stainless-steel, Mild steel (MS), bronze, zinc or any special material composition as per customers requirement.

→ Threads

ISO Metric, BA , BSW , UNC , UNF , UNEF etc. Any Thread`s As Per Customer`s Design.

→ Length / Size

As per Custom Designs or requirements.

→ Finish And Coating

Brass Natural, Nickel Plated, Tin Plated or any coating as per customer specification.

Cable glands

A1/A2 Cable glands

Alco Cable Glands

Bw Cable Glands

CW Cable Glands

E1W Cable Glands

PG Cable Glands

Marine Cable Glands

Wiping Cable Gland

→ Material

High-quality brass, copper, aluminium, steel, stainless-steel, Mild steel (MS), bronze, zinc or any special material composition as per customers requirement.

Cable gland accessories

Cable Gland accessories are available on request to facilitate external earthing, environmental sealing, and securing the cable gland at the cable entry point. Various options are available in a host of different materials and finishes, with all thread variations and sizes catered for, and for all imaginable situations. Shrouds are also offered in a variety of sizes and materials to suit customer specific requirements where necessary. Cable Gland Accessories includes.

Types of Cable Gland Accessories

<ul style="list-style-type: none">• Lock nuts	<ul style="list-style-type: none">• Earth tags
<ul style="list-style-type: none">• Sealing washers	<ul style="list-style-type: none">• Clamping modules
<ul style="list-style-type: none">• Locking washers	<ul style="list-style-type: none">• Adapters and reducers
<ul style="list-style-type: none">• Earthing washers	<ul style="list-style-type: none">• Stopping plugs

→ Material

High-quality brass, copper, aluminium, steel, stainless-steel, Mild steel (MS), bronze, zinc or any special material composition as per customers requirement.

Earthing & lightning parts

We offer wide range of Earthing Accessories like Earthing Rods, Earthing Clamps, Air Terminal, Brass Earthing Tee-Clamp, Brass Ridge Saddle, DC Tape Clip, Rod to Cable Lug Clamp, Test Bonds, earth Plate etc.

→ Material

High-quality brass, copper, aluminium, steel, stainless-steel, Mild steel (MS), bronze, zinc or any special material composition as per customers requirement.

→ Threads

ISO Metric, BA , BSW , UNC , UNF , UNEF etc. Any Thread`s As Per Customer`s Design.

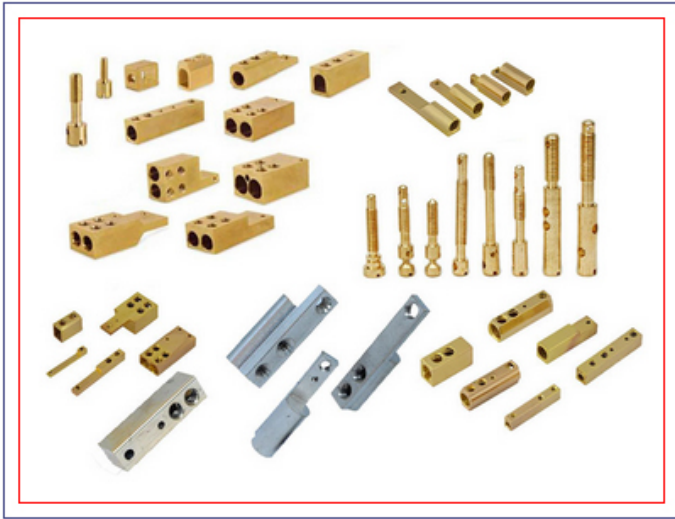

→ Length / Size

As per Custom Designs or requirements.

→ Finish And Coating

Brass Natural, Nickel Plated, Tin Plated or any coating as per customer specification.

Energy meter parts

We manufacture various types of Brass Terminals & Brass Neutrals installed in different types of Single Phase & Three Phase Energy Meters like.

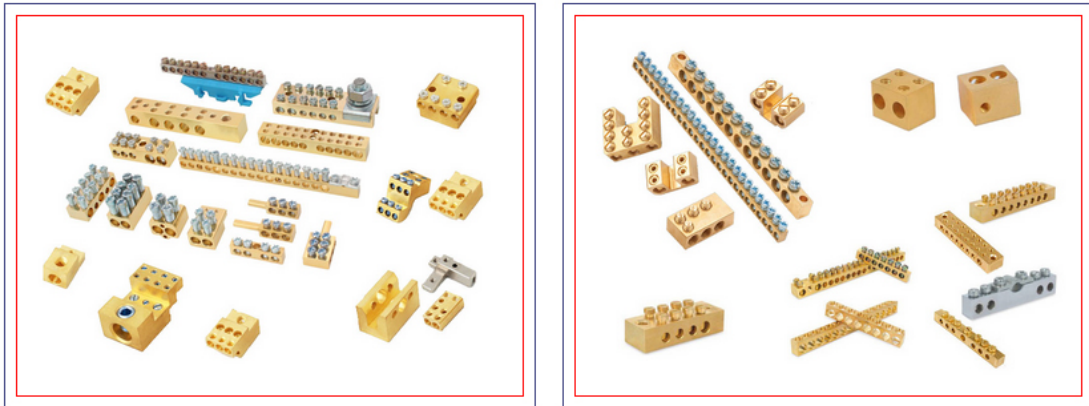

Types of products

- Electronic Meter
- Electro Mechanical Meter
- Static Meters
- Watt Hour Meter and many more types pf meters, used for Household and Industrial purposes.

→ Material

High-quality brass, copper, aluminium, steel, stainless-steel, Mild steel (MS), bronze, zinc or any special material composition as per customers requirement.

Brass Neutral links

Brass Neutral Links and terminal blocks up to 1 metre length are available. We also manufacture 4 way and 8 way Brass Neutral Links – Bar and terminal blocks with tin plated or nickel plated finish. We also manufacture earth neutral bars in sizes as per customer specification.

We offer Brass Neutral Links and terminal blocks for all types of panel board switch gears and electrical switch boards.

Product Range

- Brass Neutral Links
- Brass Neutral Bars
- Brass Earth Neutral Bars
- Brass Neutral Link 4 Way and 8 Way

→ Material

High-quality brass, copper, aluminium, steel, stainless-steel, Mild steel (MS), bronze, zinc or any special material composition as per customers requirement.

Sheet metal components

Types of Sheet Metal Components

- Sheet Metal Components
- Pressed Parts Brass Washers
- Pressings Pressed parts
- Sheet Metal Brass Parts

→ Material

High-quality brass, copper, aluminium, steel, stainless-steel, Mild steel (MS), bronze, zinc or any special material composition as per customers requirement.

Split bolts / Line Taps

→ Special Features

Brass Split Bolt Connectors Brass Split Bolts Brass Line taps Copper Split Bolts Copper Split Bolt Connectors Available as per customer's drawing and specifications.

→ Material

High-quality brass, copper, aluminium, steel, stainless-steel, Mild steel (MS), bronze, zinc or any special material composition as per customers requirement.

→ Threads

ISO Metric (MM Threads) / Any threads as per custom design.

Terminal Blocks

Terminal Blocks up to 1 metre length are available. We also manufacture 4 way and 8 way Terminal Blocks with tin plated or nickel plated finish. We also manufacture earth Terminal Blocks in sizes as per customer specification.

We offer Terminal Blocks for all types of panel board switch gears and electrical switch boards.

→ Product Range

- Terminal Blocks.
- 2-Pin Terminal Block.
- 3 Way Terminal Block.

→ Size

- Begins from M2 or equivalent threads and up to any size.
- Also available as per custom design or requirement.

→ Material

High-quality brass, copper, aluminium, steel, stainless-steel, Mild steel (MS), bronze, zinc or any special material composition as per customers requirement.

→ Size

- Specification or as per custom design or requirement.

→ Finish and Coating

- Natural, Nickel Plated, Tin Plated or any coating as per customer specification.
